DécorSatin™

Acid-etched glass – for privacy and diffused daylight

Sometimes a space needs to be both connected with the outside world and independent from it – letting in the light whilst keeping what's inside private. The DécorSatin™ range does just that.

DécorSatin™ strikes the perfect balance between allowing natural light in and making your room a sanctuary. The translucent satin finish suits modern spaces and is a practical solution suited to a range of applications.

DécorSatin™ is a float glass, where one side has been treated with an acid etch to produce a satin finish. This process is applied to the entire sheet of glass post manufacture, to ensure an overall consistent finish. The finish is both moisture and UV resistant, making it ideal for exterior as well as interior applications.

Features and Benefits

- Easy to process, **DécorSatin™** can be toughened, laminated, or combined as part of an insulated glass unit.
- Suitable for both interior and exterior applications.
- High light transmission.

▼ Performance Comparison

Product*	VLТ	U Value	SHGC
DécorSatin™	88	5.8	0.82
DécorSatin™ Grey	42	5.8	0.58

*6mm glass thickness

Applications

- Balustrades
- Facade
- Furniture
- Partitions
- Shower screens*
- Windows
- Doors
- Overhead Glazing*

Considerations

* Satin finish needs to be installed facing away from moisture exposed areas.

▼ **Suitable for both interior and exterior applications.**
